PRODUCT OVERVIEW

BEYOND TRADING I-988, DEBEZT GPS FLEET

This device is designed for fleet tracking, allowing businesses to efficiently monitor and manage their vehicles' movement. It is compatible with the Debeztgo app, available on both iOS and Android. More information is available on its website at debeztgps.com.

This GPS tracker supports 2G network connectivity via its SIM card. It is equipped with a backup battery that lasts for more than one day, ensuring continuous operation. The device provides real-time location tracking and monitors vehicle status, including whether the engine is on or off and the current speed.

It records trip data for up to 12 months and can send alerts for various events such as engine start, movement, power cuts, geo-fencing breaches, and overspeeding. These alerts are transmitted through SMS notifications. The device also features a remote immobilizer for security purposes.

Additionally, it offers comprehensive GPS reports, including trip reports, overspeed reports, mileage summaries, driving logs, and speed charts. The product is certified by SIRIM. The warranty period covers one year for the device and six months for the battery.
