PRODUCT OVERVIEW

Vtrack Solution SC201, Fleet Management Tracking System

VTrack Solution Sdn Bhd, is a customer-oriented company well-positioned in the GPS and fleet monitoring industry. Aligned with industry safety and compliance standards, our telematics tracking system combines the SC201 hardware device with the Locate It software platform to enhance operational efficiency, productivity, and security management from a single unified solution.

The Locate It platform delivers highly accurate, real-time GPS tracking via the SC201 device, paired with continuous historical route playback. For customer additional control requirements on movement, Locate IT is feasible with Geofencing and Driver Monitoring functions. Our solution enhances operational efficiency and cost management across multi-device fleets from a single dashboard, generating detailed reports, KPI performance metrics, and compliance logs.

Moving beyond basic tracking, our value proposition is to enhance operational efficiency and productivity while strengthening security management through real-time monitoring and alerts. Furthermore, our specialized Fuel Monitoring system provides additional value with actionable, data-driven insights to optimize cost management and fuel efficiency reporting.

Featuring a user-friendly mobile application, Locate It is available for both iOS and Android devices with a secure login protocol. This allows our customer to have monitoring flexibility and with real-time visibility over vehicle locations captured by the SC201, driver behaviours, and geofence violations directly from their smartphones.

As an added value, VT provides 24/7 customer support to assist users whenever technical assistance or troubleshooting is required for either the SC201 hardware or the Locate It platform. This support service helps fleet operators address system queries and resolve routine issues to minimize operational disruptions.
